ECO BEAUTY BLEACHING WITH CARE

DECO BEAUTY BLEACHING WITH CARE

A complete line of professional bleaching products, designed to achieve the best performances.

Advanced technology enriched with natural elements, to respect the hair and take care of its beauty.

A unique system conceived to carry out every bleaching technique.

A must-have for the experienced and innovative professional that wants to have great results and satisfied customers, respecting the hair beauty. Like us. Always.

PHYTO-TECHNOLOGY

High-performance formulations, enriched with natural active principles for the best hair care and beauty. Every product contains BOTANIC ACTIVE INGREDIENTS, among which:

COTTON OIL

Known for its hydrating anti-oxidant properties, thanks to the presence (50%) of polyunsaturated fats such as linoleic acid, with an high tocopherols content, and vitamin E.

COCONUT EXTRACT

Known for its hydrating and protective action, thanks to coconut nourishing features (it is rich in fibers, vitamins and minerals, such as potassium, phosphorous, sodium, calcium, magnesium and iron).

CORN PROTEINS

Well known for their repairing ad restructuring properties, but also renowned for making the hair elastic, thanks to the starch and fibers contained in its grains.

DAIRY PROTEINS

Known for their replumping and conditioning action.

CAOLIN (WHITE CLAY)

Mineral widely used in phytocosmetics, with a soothing and hydrating action, that gives texture and thickness to the mix.

NATURAL GUAR GUM

Very appreciated for its thickening and nourishing action on the hair, thanks to its content of proteins, fiber, fats and iron.

FRAGRANCES are delicate and refreshing:

Mediterranean Pine, Rose, Menthol. Comfort and well-being are of the essence during the service.

THE LINE

DECO BEAUTY: for powerful and intense bleaching. With Care.

Mix with 40 volumes on natural hair only, avoiding heat sources, aluminum or thermal foils. The mixing ratio can go up to 1:3 for any streak or highlift technique

GUIDELINES

LOVELY LIGHT

LOVELY LIGHT

X LIGHT

vol 1:1/1:2 P+0/00

NO AM

BALAYAGE

MIXING: Always mix in a plastic, glass or ceramic bowl, non metallic, respecting the mixing ratios between the powder and the specific developer, illustrated in the instructions.

DEVELOPING TIME: It's variable, depending on the desired bleaching level and on the hair structure. Check it every 5/10 minutes.

WARNINGS: Bleaching powders are not recommended for scalp bleaching, since they could induce an allergic reaction. A preliminary test should be carried out prior to application. Do not wash the hair before applying the product and do not perm hair right before or after bleaching. Do not apply the product on the scalp or the skin, eyelashes, mustaches, eyebrows or any other body hair. Avoid eye contact. Should the product come into contact with eyes at any time, rinse immediately and contact a physician. Wear protective gloves. Keep out of the reach of children.

EXTRA CARE TIPS

To get the perfect bleaching or stripping service and keep the hair as healthy and uniformly bleached as possible, it's fundamental to be as professional as one can be: diagnosis, application, and constant monitoring of the result are of the essence.

For a high quality bleaching service always use Deco Beauty products mixed with

- O2 Peroxides
- Lovely Light Developers

TO BLEACH SAFELY

Blend mixing or stripping formulas with Multiphlex, a treatment based on organic substances to:

- Improve the hair cosmeticity
- Work on treated hair safely
- Apply the bleaching product twice safely

AFTER THE BLEACHIN SERVICE IN SALON

Rinse abundantly with lukewarm water and wash with Good Society Rich Color 02 Shampoo or with Rain Dance Color Shampoo. Then apply the namesake conditioner or tonalize.

HOME MAINTENANCE

After the bleaching service it is important to keep the hair hydrated and shield it from oxidation. Recommended products: Good Society Rich Color 02 or Rain Dance Color. On blonde highlights, to neutralize gold reflexes and enhance cool ones, use Good Society Shiny Grey 51 and Color Shine Mask Blueberry.

THE INSPIRATION THE SYSTEM

DECO BEAUTY FOR SALON SERVICES

DECO BEAUTY has been designed to offer the professional advanced expert advice to beautify customers faces playing with lights, shadows and volumes.

The inspiration to these services comes straight from the make-up world.

CONTOURING

TECHNIQUE AIMED AT SHAPING A CUSTOMER'S FACE CHANGING ITS MORPHOLOGICAL PROPORTIONS PLAYING WITH SHADOWS AND LIGHTS IN HER HAIR

STROBING

TECHNIQUE AIMED AT GIVING VALUE TO A FLAT COLOR AND TO THE FACE THROUGH THE STUDY AND THE CREATION OF SPOT LIGHTING ON THE HAIR

THE SYSTEM

OUR TRAINING COURSES ARE BASED ON

CULTURE

The needed knowledge you glean from to have a decisive, aware and winning attitude towards the service.

EXPERT ADVICE

The competence to recognize what information is needed and convey it to get the best results **RITUAL**

The art of further developing the service.

THE SYSTEM APPLIED TO THE 2 SERVICES:

CONTOURING CULTURE

A technique that re-proportions morphological balances thanks to a shadow and light game, where light emphasizes and dark contains. This is how we unveil some areas and cover others: shaping and softening facial features.

CONTOURING EXPERT ADVICE

Recognizing morphological shapes thanks to our facial reference points system.

SCAN THE QR CODE TO DISCOVER THE APPLICATION VIDEO

STROBING CULTURE

"Strobing" stands for "stroboscopic effect" (movement optical illusion), and indicates the technique that highlights some facial points thanks to spotlights.

STROBING EXPERT ADVICE

Analyze the shapes dividing them in two macro-areas: bobs and layered

STROBING RITUAL

вов

PARTITION

Bob partition:

The hair is divided in the internal area (above crown), starting from a rhombus positioned in the head upper spot.

LIGHT POINT

Bob spotlights:

Mark out a veil as thick as the rhombus side, bleach lengths and tips. Repeat on the other 3 sides.

If necessary, take more veils inside the rhombus.

LAYERED LINES

PARTITION

Layered lines partitions:

Mark out the fringe triangle and then a rhombus, half crown deep. Start separating the frontal area, next to the hairline, parallel divisions next to the rhombus. Continue in the rear and opposite area with the same technique.

Layered lines spotlights:

LIGHT POINT

Mark out a veil (semi-transparency), take a large crochet and bleach lengths and tips. Continue leaving a panel between a partition and the other. The more you approach the top, the more extended the bleaching area will be.
