CARE FOR BEAUTY

**“... and from the fusion
of all the dusks
and dawns, and colors,
and earths,
skies, seas, flowers,
and again,
of all the songs, dances,
people and cultures,
beauty was finally born.**

Yes, beauty is you.”

The market faces clients expectations: yes, color is still the main service, but...

Color services are the heart of any salon activity, and **the hair color market is constantly growing**.

Actually, not only clients who need to cover grey hair ask for a **color service**, since it has become a true **beauty tool: a playful, experimental, wide and ever changing one**, for every style and age; every woman (and increasing number of men, too), make a united front in the face of beauty, for elegant, natural green, tailor-made services.

MARKET TRENDS REVEAL THAT CLIENTS ARE NOW VERY DEMANDING AND ASK FOR SPECIAL COLOR SERVICES:

- green, natural, gentle, formulative advanced;
- great performing, able to offer natural, shiny, deep color, or transgressive and playful ones;
- long-lasting results in shine and intensity;
- tailor-made, according to the client needs, desires, hair conditions;
- skilled and trustworthy advice;

HOW TO MEET THE CHALLENGE OF AN INCREASINGLY COMPETITIVE MARKET, LISTENING TO CLIENTS DEMANDS

A SALON CAN GROW BECAUSE IT OFFERS ITS CLIENTS:

- AN ACCURATE SELECTION OF HAIR CARE BRANDS AND PRODUCTS WITH A GREAT TECHNICAL AND COSMETIC RESULT: TANGIBLE BEAUTY TOOLS
- GREAR PROFESSIONAL EXPERIENCE TO MAKE SURE CLIENTS ARE SATISFIED AND BEAUTIFUL
- TAILOR MADE PROPOSALS AND ADVICE TO CREATE CUSTOMIZED SERVICES, LISTENING TO CLIENTS' SPECIAL CARE AND BEAUTY DESIRES

A challenge for growing salons:

How to meet every woman
expectation about beauty,
care, «tailor-made», green?

Phyto-Technology

PHYTO

THE KEY INGREDIENTS for hair care and beauty

Organic Radish

BENEFITS: Anti-Age, Hydrating and Protective from UV Rays and Pollution

PROPERTIES: Radish has Asian origin, and it has been used from a thousand year. It is rich in Vitamin C, Phosphorus, Calcium, Folic Acid, Vitamin A, and it has antioxidant, revitalizing and restructuring properties. It creates a protective barrier against the damages caused by oxidation (UV rays, pollution, salt, chlorine and aggressive treatments such as heat of the hairdryer, use of flat irons).

It also has a beneficial action on weak or impoverished hair, thanks to it replumping, hydrating and root strengthening action.

ORGANIC COSMOS* Certification

Organic Vitis Vinifera

BENEFITS: Antioxidant, Nourishing, Strengthening

PROPERTIES: Originated from the pressing of its seeds, it's an oil rich in linoleic acid, emollient and hydrating, in regenerating phytosterols and antioxidant OPC, protective of the cell membrane. It protects the hair and the scalp from free radicals, and it strengthens the hair thanks to the high content of polyphenols, anthocyanins, flavonoids, vitamins, minerals. It counteracts hair ageing, so it's perfect for mature hair.

ORGANIC COSMOS* Certification

Organic Olive Oil

BENEFITS: Illuminating, Soothing, Restructuring

PROPERTIES: It adds essential nutrients such as oleic and linoleic acid, the valuable E and K vitamins, rich in chlorophyll and phytosterols, with repairing and soothing action; squalene, one of the main structural components of the skin. It causes a visible cosmetic result, of immediate shine, and it has a deep nourishing action, penetrating the hair structure and the scalp.

ORGANIC COSMOS* Certification

Organic Zanthalene®

BENEFITS: Soothing, Calming

PROPERTIES: Originated from the berries of a perennial Asian plant, which has been used in medicine from ancient times for its soothing and calming effect on the scalp, thanks to the high content of phytosterols.

It is widely used in the Chinese and Tibetan cuisine, for its special scent and for its digestive properties.

Hints and Tips

From expert to expert

How can you take care of your clients grey hair?

With Beauty Fusion you can pick any shade from the color chart. Full service (permanent color) ensures 100% grey hair coverage, while Demi Plus (demi-permanent color) covers up to 70% grey hair.

N.B.

- If used in the Full service, colors will be loyal to the color chart
- If used in the Demi Plus service, coverage will be more natural and see-through

How can you take care of your clients GREY, YELLOWED hair?

If you want to polish your clients grey hair, removing the residual yellow undertone and turn it into a brilliant white, use **9.11/9B or 10.02/10NV** shades, containing blue or violet pigments, perfect to tonalize grey or yellowed hair.

To get the best result carry out an accurate diagnosis of the hair porosity and choose the most suitable color service, also considering the type of coverage the client wants (Full, Demi Plus or Gloss to intensify grey).

How can you take care of colored hair your client wants to darken?

With Beauty Fusion you can darken both natural and colored hair with the Demi Plus service. If you need to darken colored or bleached hair more than 3 levels, opt for Demi Plus repigmentarion service, detailed in the Beauty Fusion technical guide. If instead you just want to lightly darken a discolored color, we recommend the Gloss service.

How can you take care of colored hair your client wants to bleach?

As you know already, color does not lift color.

Thanks to the **Soft Light** service it is possible to get gradual highlifting, also of cosmetic color, so to erase eliminate pigment overlaps caused by previous or repeated colorations.

How can you add more shine to your clients hair?

The extraordinary PHYTO-TECH formulation contained in every Beauty Fusion shade is rich in organic, illuminating ingredients, natural oils and waxes; if used as a Gloss acidic color, it make sure final result is incredibly shiny.

But with Beauty Fusion you can also offer the Special Brilliant Service, for both natural and colored hair, with no pigments, created to add endless and incredible light to the hair.

Carry it out using CLEAR + OXYMILK 5 VOL.

How can I make color last longer?

Organic Radish and Vitis Vinifera contained in Beauty Fusion Phyto-Tech formulation act as a shield against all external agents causing color changes and dullness. To maximize color protection and shine over time it is fundamental to use and recommend specific color shampoos and conditioners, such as:

- Good Society 02 Rich Color Shampoo and Conditioner
- Rain Dance Color Shampoo and Conditioner

How can clients protect color during the holidays, against chlorine and salt?

Home maintenance is of the essence: always recommend specific maintenance products to protect the hair from the photo-oxidizing action of UV rays, sea salt and chlorine, such as Artègo Sunrise Sun Protective Oil.

How can you care for and take care of colored hair tips?

Tips are the most porous impoverished area of the hair, and we recommend to use a specific oil, that beyond carrying out a protective function, it has a disciplining and color maintaining one.

ALWAYS RECOMMEND:

- Rich Serum Oil, from Rain Dance
- 51 Argan Oil Hair Serum, from Good Society
- 99 Gloss Serum, from Good Society

Hints and Tips

From expert to expert

Can I use Beauty Fusion to realize streakes or balayage?

Yes, all the shades from the color chart can be used to carry our streakes or balayage; you can choose from classical or super blondes shades, always as FULL service.

Either you work with foils or hand free, recommended mixing ratio is 1:2.

Don't forget you can obtain a natural and gradual highlifting with Beauty Fusion choosing the "Soft Light" service.

Is Beauty Fusion recommended on weakened hair?

Yes, because every shade has a Phyto-Tech formulation, rich in organic treating emollient, nourishing and protective ingredients. For a more delicate action, choose Demi-Plus service, with low ammonia content, or Gloss service, with acidic pH.

How can you eliminate orange residual reflexes?

Special shades 6.11/6B and 9.11/9B, with high concentration of blue pigment, are perfect to counteract and neutralize orange residual reflexes that often come out after bleaching.

How can you eliminate yellow residual reflexes?

Special shades 9.22/9V and 7.23/7NVG, with high concentration of violet pigment, are perfect to counteract and neutralize yellow residual reflexes that often come out after bleaching.

How can you eliminate ash residual reflexes?

You can do it using **series .44/CC or .34/WG**.

To counteract ash residual reflexes it is necessary to use Orange/Orange-Yellow reflexes. Series .44/CC and .34/WG contain both yellow and red reflexes in their formulations, that's why they are particularly useful to counteract ash residual reflexes. For a more delicate effect we recommend to mix it with CLEAR.

How can you give the hair a gold reflex?

With all shades from the **series .3/G**. This family gives wonderful gold reflexes, with a very bold final effect (more intense than other color families).

How can you make your clients hair color colder?

Using Demi Plus service, which gives a colder final reflex compared to Full, and that can also be used to cool down warm colors.

As an alternative, you can use the cold shades from the Beauty Fusion chart (.1/A, .11/B, .13/S)

N.B. The shade 5.8/5M is really special: it has a deep green reflex, able to counteract red undertone. You can dilute with CLEAR to soften the final result.
