NATURE'S TIME

RAIN DANCE

THE RITUAL, THE PURITY, THE FORCE OF WATER

It all begins with water: who knows which water drop gave life to that leaf of grass sprouting from barren land? We also come from there: submerged, weightless, not cold or warm, in muffled sounds – we grow – and, finally, we come into the world.

Water is the original element we will always look for; water is a gift from nature and at the same time it's its nourishment.

Water harbors something primordial and magical.

Its force has always been invoked: rain gives life to the desert, rain is long in coming, it lingers beyond the cloud; we yearn for it, we invoke it dancing, as if we were urging it to do the same, resuming the life cycle where it falls, evaporates, and again nourishes the Earth in a perfect and harmonious round dance that generates plants, flowers and fruits.

We gleaned inspiration from the **magic of rain**: this is how we created Rain Dance, thinking about plants and water as unique and essential elements for a blooming and vital hair growth, for its health, for its beauty.

BOTANICAL APPROACH

Imagine you treasure unique and rare plants in a greenhouse, that trust in your love and care to thrive healthy and luxuriant: strong, vital, cherishing the love and passion you project on them.

In its evolution Rain Dance finds an extra-ordinary similarity to the world of plants, creating a SYNERGETIC SYSTEM made of:

- **PRODUCTS** formulated according to **PHYTO-TECHNOLOGY**
- **WELL-BEING** and **PLEASURE RITUALS** where **MANUAL SKILLS** are **FUNCTIONAL TO THE ACTIVATION OF** all the scalp physiological receptors, so to maximize the benefits of the active ingredients
- **SALON ENVIRONMENT** where expertise and customization turn the space into an oasis of care, relax, satisfaction for a rediscovered beauty

Customers will enjoy a fulfilling wellness experience, thanks to visible care and beauty results, immediate and over time.

Discover Rain Dance evolution becoming **BOTANICAL BEAUTY SPECIALISTS**.

PHYTO-TECHNOLOGY SYNERGY BETWEEN SCIENCE AND NATURE

With Rain Dance we created a complete line of product-treatments, loyal to our **RIGOROUS PHYTO-TECHNOLOGICAL FORMULATIVE APPROACH**, looking for the best synergy between the efficacy of botanical active ingredients and scientific intelligence; all products are enriched with:

- **IPSTIC**, one-of-a-kind molecule for a healthy, quick and strong hair growth.
- **18** natural active ingredients, among which **6** are **CERTIFIED ORGANIC***, to care, protect, nourish, hydrate, add volume, body and shine to the hair.
- **SILK PROTEINS**, extracted by the double thread of Bombyx Mori (silkwarm), are extraordinary proteins: they create a thin invisible film on the hair. **SERICIN**, the main molecule, has a high hydrating power, since it bonds with water molecules, making the hair incredibly silky and soft.
- **HYDROLIZED KERATIN**, a (protein) natural component of the hair fiber. Similar to keratin but carefully ground; it firmly bonds with keratin repairing the smallest amino acid missing segments on the hair stalk.

I. IPSTIC - THE SCIENCE

It is an active component developed by the University of Calabria, composed by **HYALURONIC ACID** and **SOY PROTEINS**. These 2 substances constitute a complex encapsulating 4 main macromolecules that have a leading role in the active ingredient:

- **CAPSAICIN**, with local stimulating action, soothing and analgesic
- **EPIGALLOCATECHIN**, from green tea, with antioxidant properties
- **POLYPHENOLS**, from coffee and chocolate, with a powerful antioxidant anti-inflammatory action
- **ZINC GLUCONATE**, astringent and antiseptic, important to stimulate cell regeneration

BENEFITS AND RESULTS ^a

- It inhibits the action of 5 α -reductase, considered to be one of the main responsible of hair thinning out and fall
- Antioxidant and anti-inflammatory action, to reach the best health and functional scalp and bulb conditions
- It stimulates the bulb's activity, promoting strengthening and rapid hair growth
- It favors blood flow on the scalp, favoring the absorption of nourishing substances, which are needed for a healthy and steady growth
- It adds essential amino-acids to nourish the hair bulb
- It has a long lasting effect, since functional active principles are released over time

2. THE LINE'S BOTANICAL RICHNESS - NATURE

Every product is enriched with a specific synergetic blend of IPSTIC plus natural active principles, among which:

CARE FOR BEAUTY

SCALP MESSAGES

In our WELL-BEING and PLEASURE RITUALS MANUAL SKILLS are FUNCTIONAL and help ACTIVATING all the scalp physiological receptors, so to maximize the benefits of the active ingredients of the products.

Opening and closing steps in our massages are always the same: VASCULARIZATION and DETACHMENT.

OPENING STEP: VASCULARIZATION

A functional, necessary step to prepare the scalp to receive the relaxing active ingredients. The technique consists of an upward circular movement, starting from the nape, aimed at stimulating and improve the blood flow throughout the scalp.

CLOSING STEP: DETACHMENT

This is also for a better absorption of the active principles, offering a pleasant sensation of wellness and awakening. The technique consists of detaching the scalp by pressing with the palm of your hands on the sides of the head, repeating an upward movement for at least three times.

What differentiates one massage from another is the CENTRAL STEP (BODY of the massage).

SHAMPOO APPLICATION

In case you are applying Rain Dance shampoos, the manual action required is activating the product on the scalp with an upwards circular massage, repeated for at least 3 times for each shampoo.

BLOOMING ELIXIR APPLICATION

In case you're applying Blooming Elixir, the manual action required is acupressure on the scalp; after every pressure, you should apply a drop of BLOOMING ELIXIR.

Also apply the product on the sides of the head and on the nape, distributing uniformly.

ACUPRESSURE POINTS
FOR BLOOMING ELIXIR
APPLICATION

- The first point (A) is one finger from the recess of the nose.
- Find the other points at half finger distance one from another

REMEMBER THAT

1. Massaging the scalp helps relaxing one's mind and help loosing contractions.
2. The movement of the massages must be gentle: movements run through the hair with determined yet light pressures. It's better to move slowly not to irritate the scalp, being too aggressive. Count to five for every rotation.
3. A five minutes massage it's enough to safeguard the health of the hair and for a special wellness and relaxation feeling all over the scalp.

It will be up to the BOTANICAL BEAUTY SPECIALIST to make a correct consultation.

Botanical Remedies are hence highly customer-adjustable, to get the best possible results.

1. RECONSTRUCTION - STRENGTH AND BODY

A reconstruction service that has been conceived, studied and carried out so that the salon could have a professional, modern, quick and efficient tool.

A complete treatment able to rebuild the hair from the inside, making it healthier, softer and more disciplined, thanks to the product's reconstructing and conditioning properties, together with the massage and application technique.

Results are visible right from the first application.

ACTIVE INGREDIENTS

Each product contains a mix of certified natural oils: Camellia, Tsubaki, Cardoon, Olive and Castor oil, valuable active ingredients, plus the scientific complex called IPSTIC.

SENSORY EXPERIENCE

Both during the washing and during the following steps, perform a massage on scalp and lengths, to favor the functional active ingredients penetration into the hair.

RESULTS - TREATMENT CYCLE

The ingredients used by our laboratories ensure a long-lasting reconstructing efficacy. Using home maintenance products helps preserving that efficacy over time.

ADVICE - TREATMENT CYCLE

Depending on the diagnosis, the program consists of 3 TREATMENTS; more intense in the first period (2 or 3 weeks) followed by a second maintenance step, with longer pauses between one service and another (4 to 6 weeks).

WELCOME

Welcome the customer in the Salon and create the right atmosphere, with the help of relaxing background music and a scented Rain Dance candle.

ADVICE

Start with the initial diagnosis, which will tend to evaluate the hair damage level, its porosity and its structure / texture. Evaluate developing times and – if it is appropriate the use of heat sources.

Offer the service to the customer, telling her how it works and what are its advantages.

RITUAL

Accompany the customer to the shampoo area. Apply HYDRA SHAMPOO in the 5 points we talked about (upper area, sides, nape and rear area). Distribute the shampoo and start the upwards circular massage: repeat it for 3 times and rinse starting from the nape and moving upwards. Repeat if necessary. At the hand, towel dry the hair using a cotton towel.

Divide the hair into 5 sections and spray (always bottom-up) THERMO-ACTIVE REPAIR FLUID, applying more product on the most damaged or porous areas. Massage gently and carefully to ease the products absorption, then comb to keep the hair tidy. Apply all over the hair. Do not rinse and blow-dry using a brush. On medium-thick and/or overly damaged hair finish the application with a few flat iron strokes (Max 150/160°C).

Moisten the hair, spraying water first and HYDRATING MILK SPRAY afterwards, so to ease the next DEEP REPAIR MASK APPLICATION. Distribute the product strand by strand, being generous on the most damaged or porous areas, then comb to keep the hair tidy. Once the application is over, wrap the hair in a dampen hair turban, being careful of leaving the hair tips facing downwards; leave 5/10 minutes under a heat source at medium temperature.

Perform a gentle hand massage on your customer during exposure time with VELVET HAND BUTTER.

Once exposure time is up, remove the turban and leave the hair at room temperature during some minutes. On thin, sparse hair, it is possible to avoid the heat source.

Rinse with abundant water, gently. Towel-dry the hair afterwards to eliminate the water in excess. Accompany the customer to the chair and spray HYDRATING MILK SPRAY onto the hair. Style as desired.

Ritual Time: 26 minutes

GOODBYE

Once the first treatment is over, it is important to plan a customized program to repeat the service over the following weeks (so that it lasts longer), considering the damage status of the hair. In any case, it is important to recommend the use of our home maintenance products, HYDRA SHAMPOO and CONDITIONER, DEEP REPAIR MASK.

2. BLOOMING. GROWTH AND STRENGTH

An experience of sweet, peaceful energy, donating positive wellness while stimulating follicular activity, favoring the intake of fundamental nourishing elements for a quick and vital hair growth.

The scalp is brought back to optimal conditions, it is oxygenated and nourished; the growth is hence accelerated and the hair is strengthened from the root, reinvigorated and filled with energy.

This treatment is specifically aimed for those who have thinned out, dull, slowly growing hair.

ACTIVE INGREDIENTS

Each product contains a mix of certified natural oils: Camellia, Tsubaki, Cardoon, Olive and Castor oil, valuable active ingredients, plus the scientific complex called IPSTIC.

SENSORY EXPERIENCE

Both during the washing and during the following steps, perform a massage on scalp and lengths, to favor the functional active ingredients penetration into the hair.

RESULTS - TREATMENT CYCLE

The ingredients used by our laboratories, in combination with IPSTIC, ensure a certified hair growth stimulus:

+ 120% hair follicle elongation

+ 170% hair growth increase

ADVICE - TREATMENT CYCLE

Shock treatment: 1 application per day during 30 days.

Repeat the cycle twice a year.

Maintenance treatment: 2 applications per week.
